

Invitation

Birding NSW Annual
Arnold McGill Memorial Lecture

6 December 2022

Dear Birding Colleagues,

We are privileged to welcome **Research Professor Stephen T. Garnett** of Charles Darwin University who will take the Lecture this year.

“Threatened birds in New South Wales - threats, knowledge, management and the future”

“Stephen Garnett is a conservation biologist from Charles Darwin University in Darwin.

*He has been working on threatened Australian birds for over 30 years, having produced the **last four national action plans**, with the latest*

appearing in 2021. His talk will consider the threatened birds living in New South Wales, the threats they face, what we know about how to manage them and the work that has been conducted to date.

He will then speculate on what the future might hold for the state's avifauna.”

Arnold R. McGill OAM

We request the Pleasure of your Company to hear the Arnold McGill Memorial Lecture and later join us for a Christmas celebration.

Date: Tuesday 6 December 2022

At: The Henry Carmichael Theatre,
1st floor, The Sydney Mechanics' School of Arts,
280 Pitt St Sydney
